

## **IST 263 Project Milestone 1**

**Name:** Courtney Lynch

### **Description:**

Submit a description below of the idea for your website project. This proposal should be 50-100 words. Include some information about what will be on the three pages in your website.

My idea is going to be a wine and cheese blog. During the holidays, date nights or special events it is hard to find cheeses that everyone enjoys. I love having wine night with my friends and family, and it is one of my goals to own my own vineyard and wine company.

For my 3 pages I will have a blog as 1 with cheese and wine photos from restaurants or combinations that I have tried on my own or information sent in from followers. The second page will include reviews on specific cheeses for certain holidays and events. Under this page there will be an option to have shipping of premade cheeseboard and wine combinations. The last page will be red, white, and rose wine reviews. The information on each page will also include different brands, aging times of products and producers. It is difficult for hosts to go to the store and choose the correct cheese, crackers, fruit combinations that everyone will love. It is extremely important to satisfy your guests likes and dislikes within food and wine.
